Top PSC Performers

January 2026

36M
DATA
INCLUDING
DEC 2025

► Dry Bulk ► General Cargo ► Tankers ► LNG ► LPG ► Containers

Apo Belokas
Founder & CEO

RISK4SEA is a **SaaS PSC Intelligence** platform, **illuminating PSC performance** to **Prepare/Assess** PSC inspections, **Benchmark** against competition and **Automate PSC** functions & alerts to **eliminate detentions** and **minimize OPEX**.

At RISK4SEA, we are dedicated to providing actionable PSC intelligence to illuminate Port State Control (PSC) performance and support the journey toward sustainable shipping

With a focus on embracing excellence, we are thrilled to announce the 6th edition of the **Top PSC Performers**, alongside the latest issue of our initiative called “**PSC Resilient 50**” that highlights the Top 50 Managers in terms of PSCIs without any detention. Both of which provide transparent access to the documentary evidence and in-depth research underpinning our findings.

We have meticulously mapped the entire PSC ecosystem—including PSC stations, ships, managers, and PSC inspections (PSCIs)—and finalized a robust benchmarking methodology, designed to be practical, accurate, and verifiable, ensuring it is both meaningful and applicable in real-world scenarios, incorporating geotagged PSCI data for the specific ship type, fleet segment, and age group.

We are excited to introduce this initiative, aiming to make PSC intelligence accessible to a broader segment of the market with the goal to update and circulate these rankings quarterly, covering the last 36 months of data.

By doing so, we aspire to illuminate PSC performance and promote Safety excellence, while also recognizing smaller players who often excel but may not receive the same spotlight as industry giants.
